Dispelling Myths about Diversity Recruitment

**Assumption:** Factoring in diversity considerations will distract from the goal of finding an exceptional candidate.

**Reality:** A focus on diversity enhances the likelihood of finding an outstanding candidate. A diverse candidate pool comprised of women, underrepresented minorities, and other underrepresented groups ensures that applicants with varied experiences are considered. Avoiding bias in the evaluation process promotes a fair assessment of all candidates and leads to the selection of a highly qualified individual for the position.

State as a Model Employer (SAME Program)

The New Jersey State as a Model Employer of People with Disabilities (SAME) program is designed to increase awareness of employment opportunities for persons with disabilities, provide appropriate avenues and remove barriers to the application and hiring process, and create mechanisms to increase advancement and retention rates for persons with disabilities employed by the State of New Jersey.

P.L. 2021, Chapter 465 and P.L. 2021, Chapter 466 require the Division of EEO/AA to develop and implement a State as a Model Employer of People with Disabilities (SAME) program (effective May 1, 2022)

Goal is to increase the representation of qualified persons with self-identified disabilities in the State workforce.
SAME Program- Search Committee Responsibilities

From time to time Human Resources and/or the Office of Accessibility Resources will identify certain qualified candidates who, either by contractual obligation or as mandated by law, are to be extended a bona fide interview. While the candidate must be interviewed this does not mean the candidate must be selected. All candidates should be afforded equal consideration.

Search committee members are responsible for ensuring that all candidates are treated in the following manner:

- We all communicate in various ways. It is ok to ask applicants their preferred communication style.
- Pay attention to cues from the person you are communicating with.
- Face the person and speak in typical tones.
- Don’t be afraid to say that you don’t understand, ask the person to repeat what they said and repeat it back to make sure you understood.
- Don’t speak for a person or attempt to finish their sentences.
- Sit down when speaking for more than a few minutes with a person who uses a wheelchair, so you are at eye level.
